

# Tips for Refining Your Trial List

You can filter and refine your trial results in several useful ways.

If you click on the “Filter by Location / Phase” button, you can use the Location filters to only see trials that are close to your home. By default, trials are sorted based on distance from the zip code you entered in your profile. You can change your zip code to see trials in a different location.

## Filter by Trial Phase

☒ Phase I ☐ Phase II ☐ Phase III

## Filter by Location

85016 

*If you do not specify, the default will be 94107.*

Proximity (in miles)

20 50 100 250 500 All U.S.

For example, you may want to see trials that are near a family member or caregiver’s location.

Trial results can also be filtered by the trial phase if desired.

You can consult with your doctor or care team to determine what trial phases are appropriate for you.

# Tips for Refining Your Trial List

Click the “Filter by Trial Type” button if you want to see a specific type of trial.

The screenshot shows a filter modal with a close button (X) in the top right corner. It contains two sections: "Filter by Treatment Trials" and "Filter by Non-Treatment Trials".

**Filter by Treatment Trials [ Clear All ]**

- ☐ Brain Mets required
- ☐ Brain: Leptomeningeal Mets required
- ☐ BRCA1/2 (inherited)
- ☐ Chemotherapy
- ☐ Hormone Therapy
- ☐ Radiation Oncology
- ☐ Targeted Therapy: All
- ☐ Targeted Therapy: Anti-HER2 Therapy
- ☐ Targeted Therapy: CDK Inhibitors
- ☐ Targeted Therapy: PARP Inhibitors
- ☐ Targeted Therapy: Tumor Mutations
- ☐ Targeted Therapy: Other Targeted Therapy
- ☒ Vaccines and Immunotherapy
- ☐ Other Treatment

**Filter by Non-Treatment Trials [ Clear All ]**

- ☐ Activities
- ☐ Complementary and Alternative Medicine
- ☐ Decision Support
- ☐ Genetics/Family History
- ☐ Lymphedema
- ☒ Managing Side Effects
- ☐ No Travel Required
- ☐ Predicting Response to Treatment
- ☐ Support/Education
- ☐ Surveys/Interviews/Registries

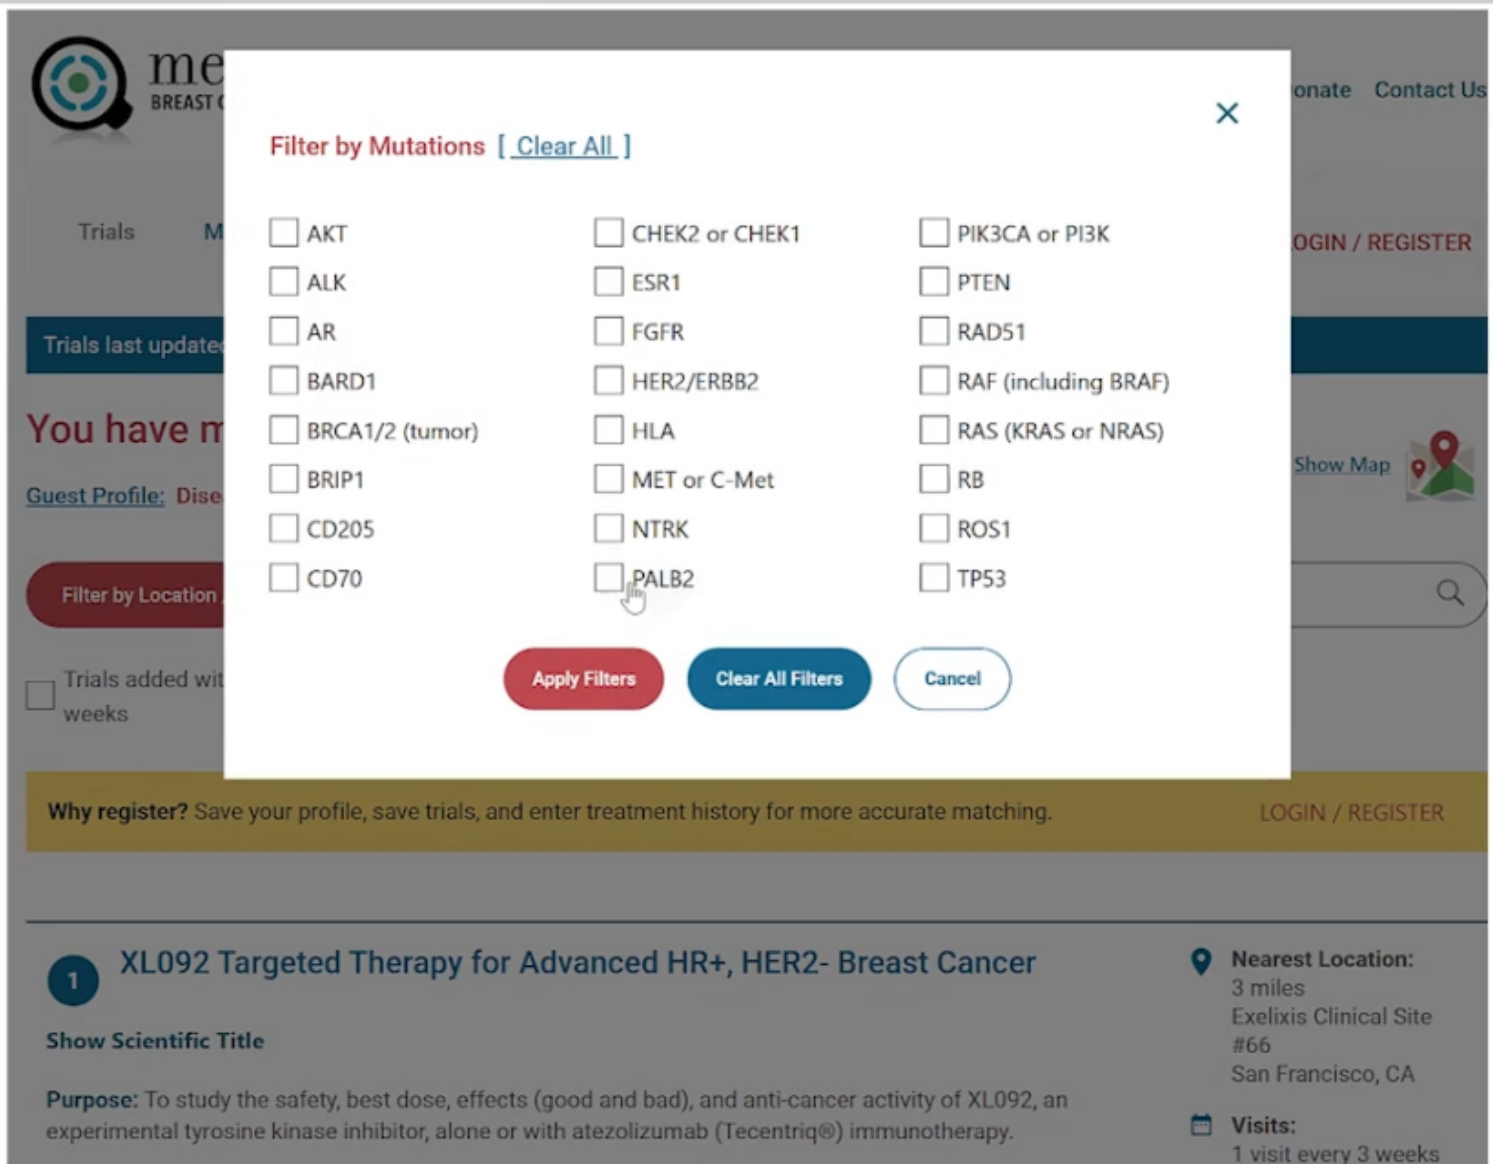

At the bottom, there are three buttons: "Apply Filters" (red), "Clear All Filters" (dark blue), and "Cancel" (light blue).

You can select treatment trials that study a new drug or procedure, or non-treatment trials that focus on managing side effects or improving quality of life.

★ **Remember:** Help is always available.

# Tips for Refining Your Trial List

Click the “Filter by Mutations” button to display trials that target a specific mutation associated with your tumor if you have that information.
